Our doors define homes

Our family owned business has been working with doors for over 30 years.

We're XL Joinery and we do everything doors. We focus all of our energy on our doors and we are proud to say that we provide some of the best in the world.

Doors help define our homes, and whether your interior suits a timeless oak, or a bold black, there's something for everyone in our carefully selected range.

Using the highest quality materials and the best craftsmanship, we have a vast array of sizes, and a huge depth of range. Across standard doors, glazed doors and fire doors, our striking range of colours and finishes are inspired by some of the most talented designers in the business.

Over time we've learnt a thing or two. Skills and experience gathered from the craftsmen, carpenters, builders and joiners who see our product through from rough and sawn to finished and hung.

Our people are experts in their craft, combining time-honoured tools and modern technology to guarantee excellence. They've taught us to focus on quality, on materials and on provenance. Because when we know where our wood comes from, and exactly how to use it, we create better doors, and better design too.

Community is important to us. Not just the XL Joinery family, though we're proud to employ some of the best in the business. But a community connected worldwide by woodwork. Our timber makes quite a journey to get here, so it's vital that we know exactly where it's from.

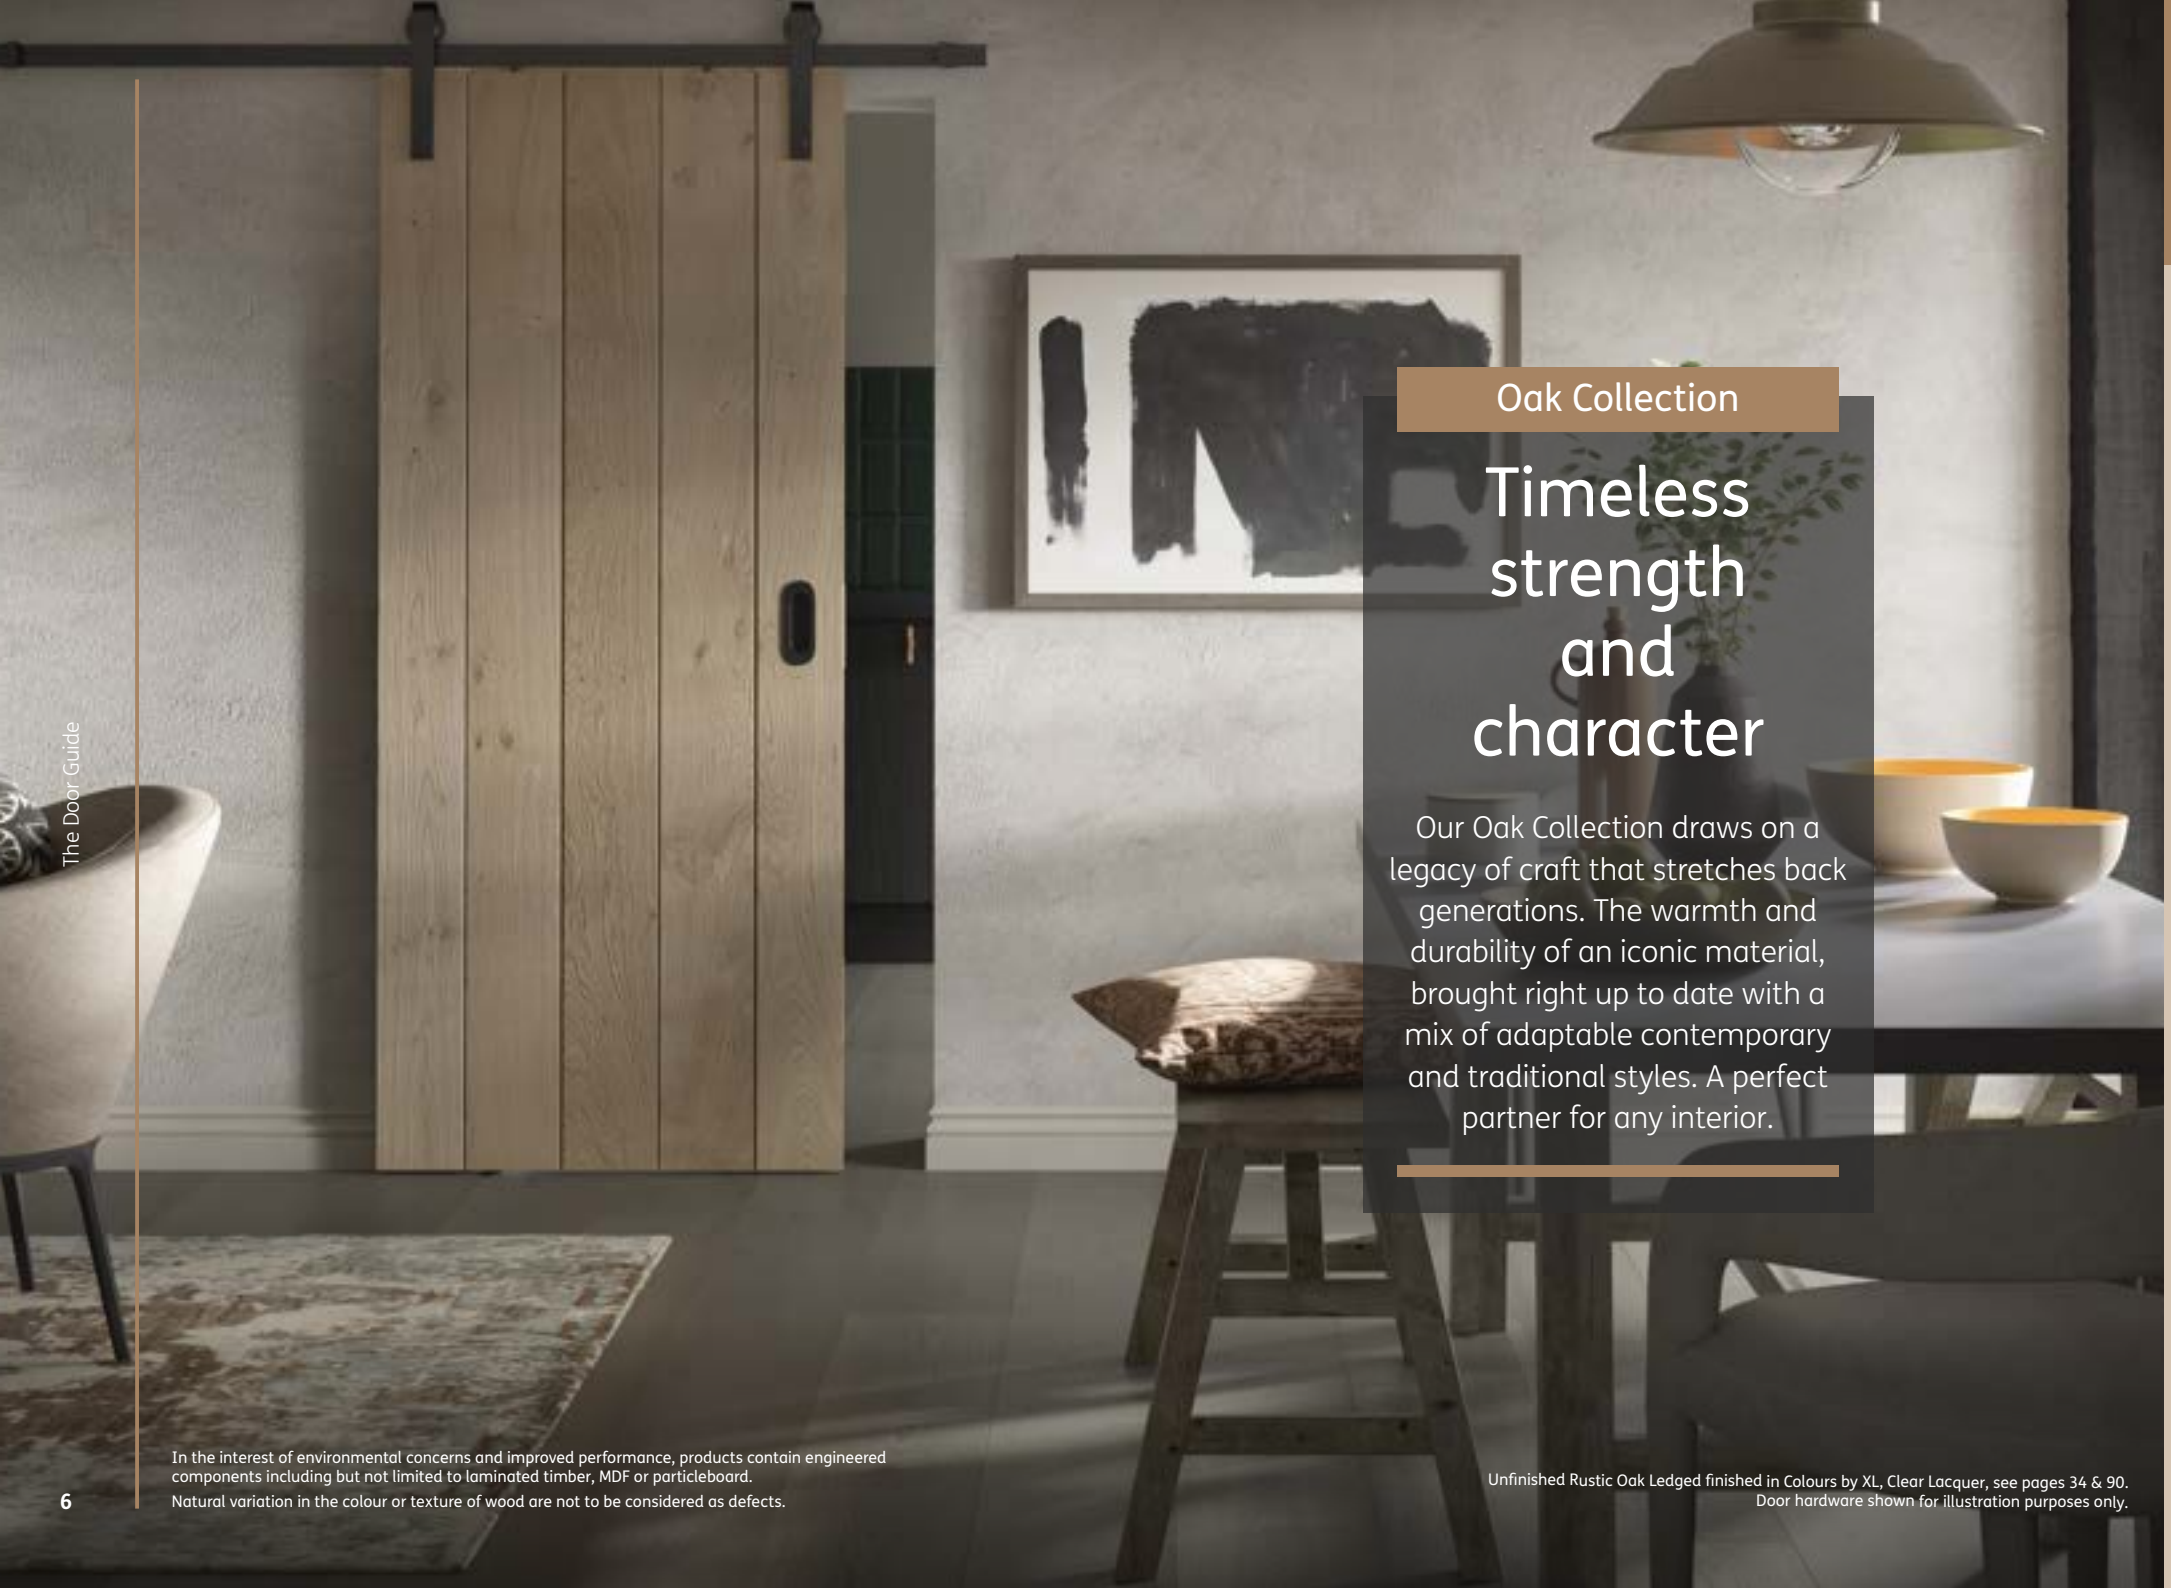

We use FSC® and PEFC certification, with cutting edge systems to ensure everything is tracked and traceable. And we're engaged with sustainability at home too. One of our biggest achievements has been to go fully Carbon Neutral, an initiative driven by our passionate team members.

Our Yorkshire headquarters has one of the largest stockholdings in the UK, and our team handle everything from quality control, after-sales service and delivery in-house. We work with a hand-picked network of builders merchants and retailers, providing nearly half a million doors a year for everything from personal renovation projects to ground breaking new developments.

If you can't find what you're looking for at first glance, just remember you're dealing with people who know their craft. With a wide range of bespoke options and services, the chances are we can help.

Pre-Finished Original Oak Suffolk, see page 10.

Oak Collection

Timeless strength and character

Our Oak Collection draws on a legacy of craft that stretches back generations. The warmth and durability of an iconic material, brought right up to date with a mix of adaptable contemporary and traditional styles. A perfect partner for any interior.

In the interest of environmental concerns and improved performance, products contain engineered components including but not limited to laminated timber, MDF or particleboard.
Natural variation in the colour or texture of wood are not to be considered as defects.

Unfinished Rustic Oak Ledged finished in Colours by XL, Clear Lacquer, see pages 34 & 90.
Door hardware shown for illustration purposes only.

Customise any of our Unfinished Oak doors

Available in a palette of five stain colours and a clear lacquer, any of our Unfinished Oak doors can be tailored to complement various interior themes, allowing a personal touch in any home.

THE OAK ESSENTIALS

Featuring our most popular door designs, the Suffolk and the Palermo.

First impressions count, which is why our Oak Essentials are expertly crafted with precision. Warm tones radiate from the real wood and the stunning texture of the timber grain offers an impressive finish.

- Luxury, deep chamfered grooves offer greater depth, making it appear more striking compared to imitators with shallow square grooves.
- Carefully selected veneers for the highest quality aesthetic.
- Compatible with the Glazed Fire Door options in the Original range.
- Engineered construction for greater stability and performance.
- Available to bulk order and can be delivered in batches at any time, to suit the project.
- A vast array of Glazed and Fire Door sizes make them essential for any project.

Features include:

- Available as a Doorset
- Sound Insulation
- Heat Retention
- 10 Year Guarantee
- Vast Range of Sizes
- 20mm Solid Hardwood Lippings*
- Fire Door Option Available
- Glazed Options Available
- Available Unfinished
- Available in Colours by XL
- Available Pre-Finished

A guide to Oak Original v Essential

On the surface, they may look practically identical, but they do, in fact, have contrasting qualities.

The Original and Essential ranges can be mixed and used interchangeably. This means you can install Essential Glazed doors alongside Original Glazed Fire Doors.

The requirements or specification of your project however, may determine the use of one over another. Our Original v Essential comparison table will help you decide which one suits best:

	Oak Originals	The Oak Essentials
Fire Doors Available	✔	✔
Glazed Options Available	✔	✔
Glazed Fire Options Available	✔	✘
Lippings	20mm	20mm

Style with presence

The Rustic Oak Ledged is a traditional cottage style door, perfect for renovations, heritage interiors, and for anyone seeking the cosy warmth of this dependable and timeless classic.

This statement solid oak door combines the best modern construction methods with a material that stands the test of time, providing a real sense of presence for any interior.

Rustic Oak Ledged

Unfinished Oak

Code	Size
ROLB24	1981 x 610 x 40mm (24")
ROLB27	1981 x 686 x 40mm (27")
ROLB30	1981 x 762 x 40mm (30")
ROLB33	1981 x 838 x 40mm (33")

Please note: 3 horizontal ledges across the back.
40mm depth of the door is including the ledges.
This door requires T-Bar hinges, and we recommend a surface mounted rim latch.
Unavailable as a Bespoke.

Our Oak doors

There is a reason why we are the trade's favourite door supplier. We have crafted our Oak doors with carpenters, joiners and developers in mind.

- All our internal doors are FSC® certified*
  Including the White Primed Collection and Mode by XL Laminate Collection
- Hand picked American White Oak veneers
- Hand matched Oak lippings, grooves, inserts and mouldings*
- Superior quality control
- Huge depth of range, including sizes, Fire Doors and Glazed options

Pre-Finished Oak v Unfinished Oak

Which is right for you?

Unfinished Oak

- ✔ Finish flexibility at home
- ✔ Ideal for DIY enthusiasts
- ✔ Budget friendly at a factory level
- ✔ Colours by XL compatible

Our internal Unfinished Oak doors arrive without any paint or varnish applied. They are pre-sanded but otherwise untreated.

Doors will require a light sanding prior to finishing using a fine grade sandpaper. All timber surfaces should be fully finished before final fitting with a good quality paint, stain or varnish.

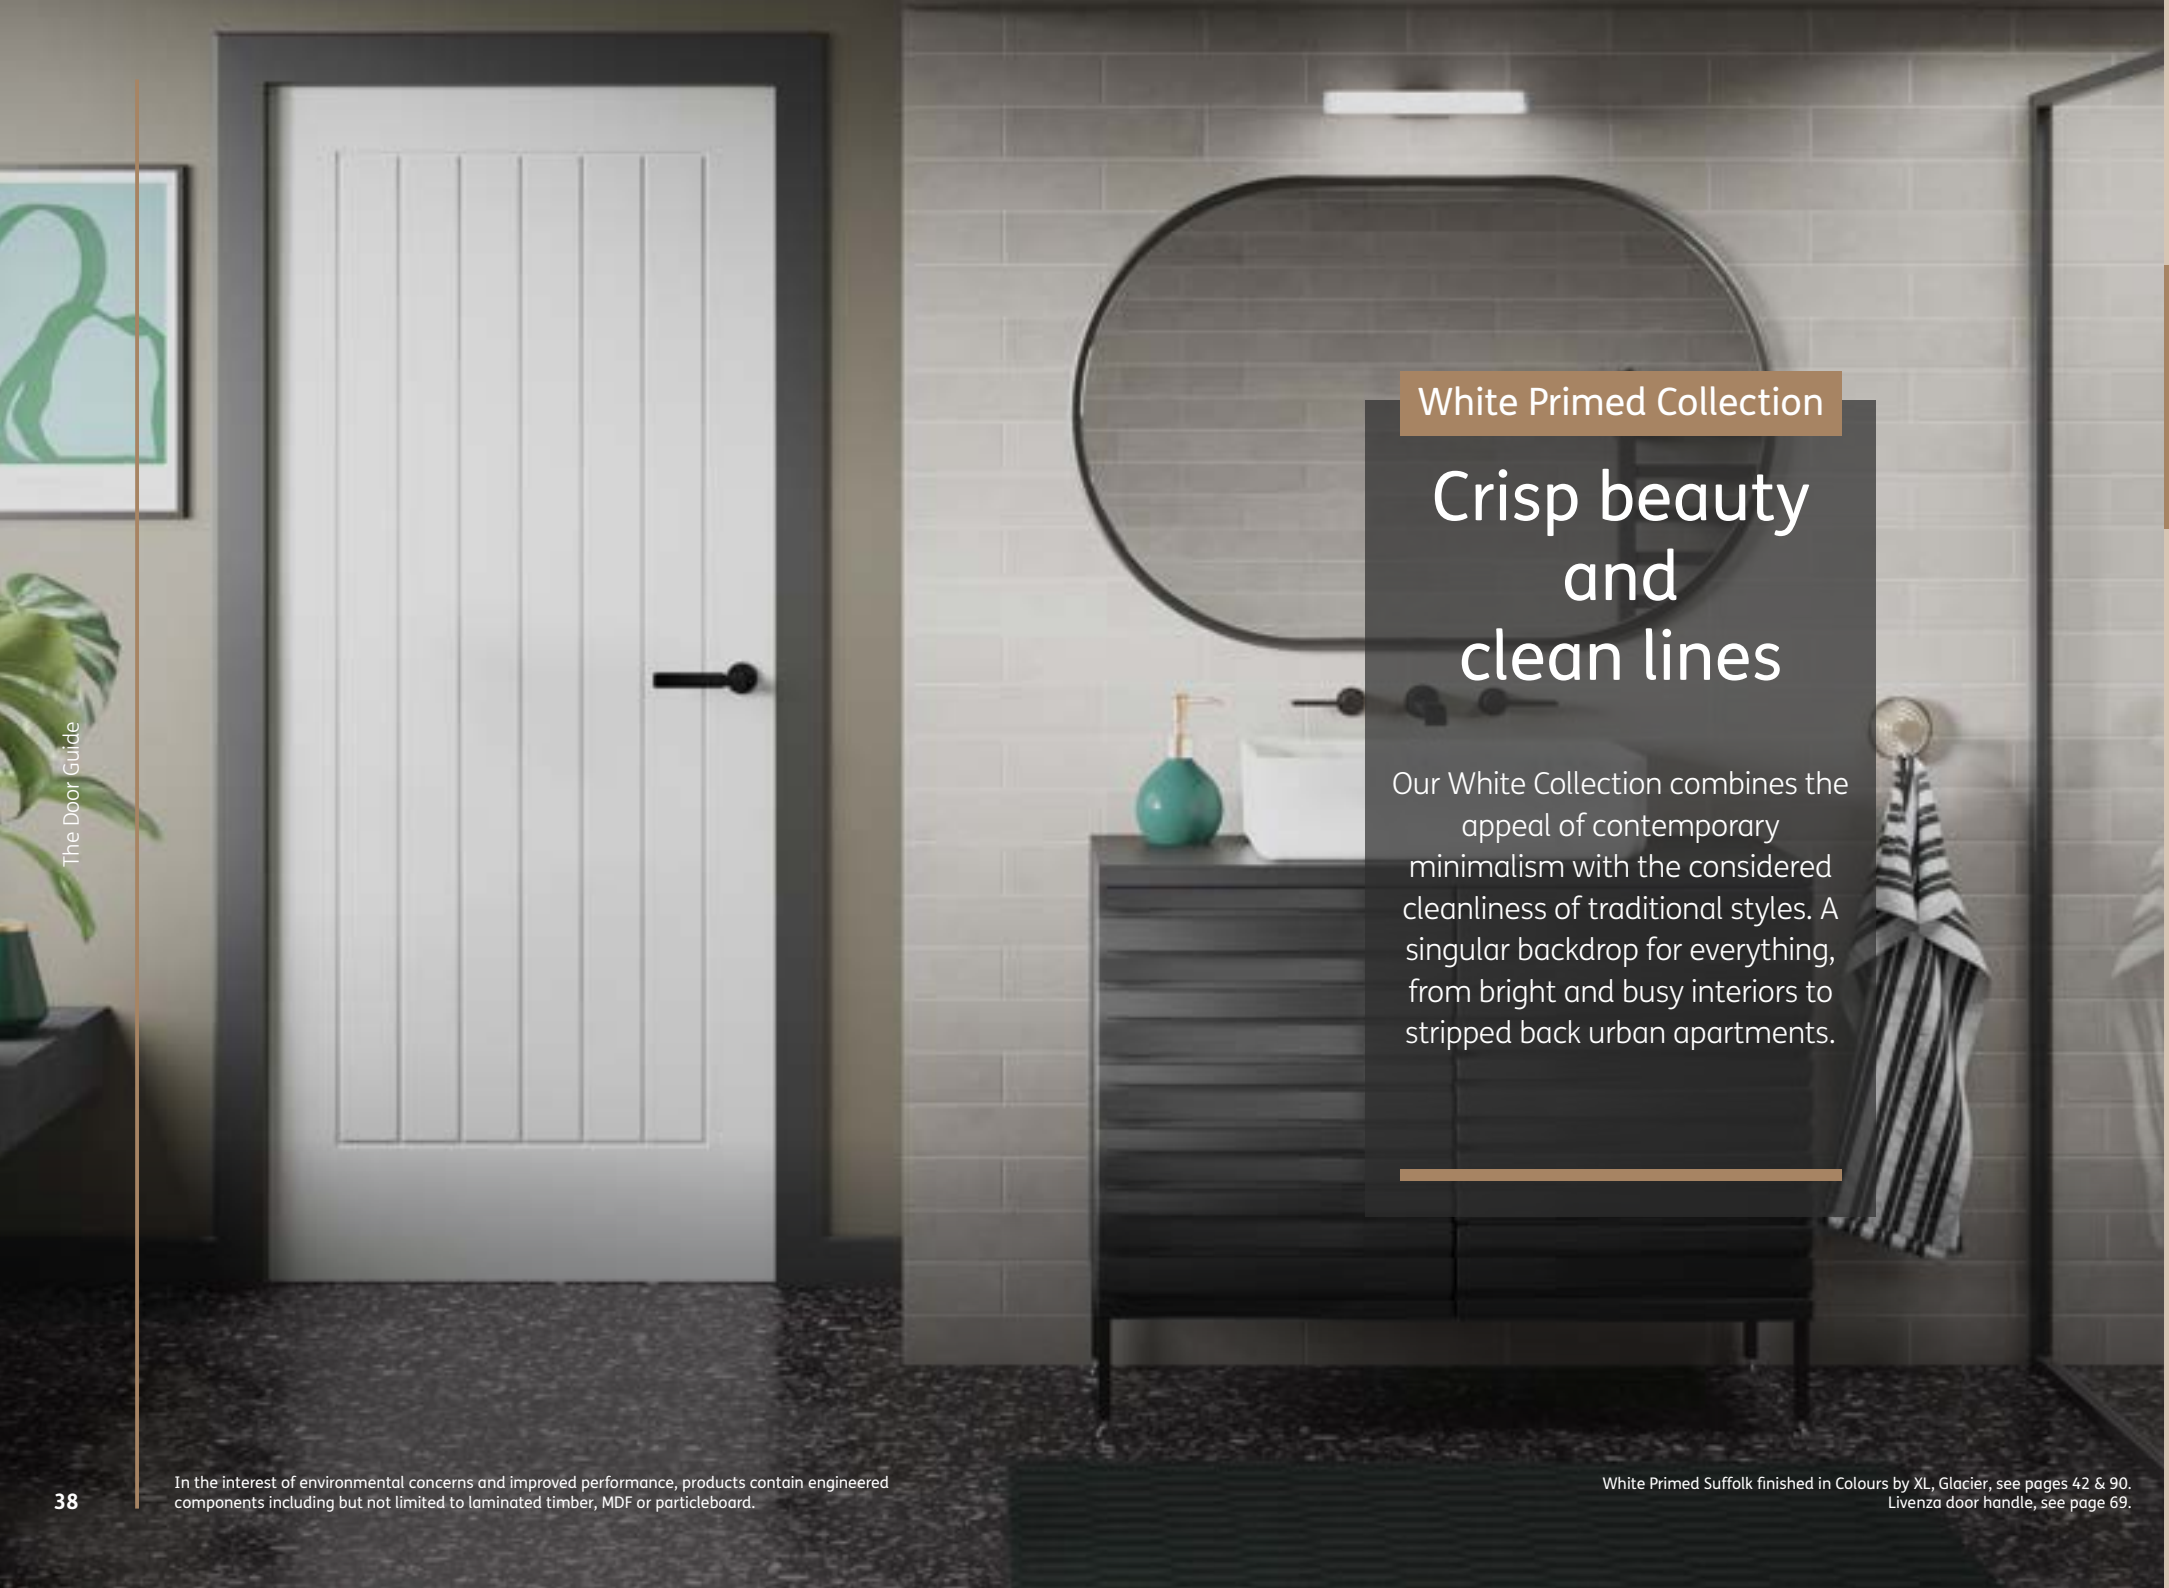

Pre-Finished Oak

- ✔ Professional finish
- ✔ Saves time and effort
- ✔ Suitable for DIY novices
- ✔ Greater durability

Our internal Pre-Finished Oak doors arrive almost ready to fit. They are pre-sanded, primed and stained in a clear lacquer.

The only finish they require at home is any bare timber areas (caused by trimming and cut outs for hardware fitting) to be lightly sanded and finished with a good quality stain or varnish, before final fitting.

***Excludes the Oak Essential ranges.**

White Primed Collection

Crisp beauty and clean lines

Our White Collection combines the appeal of contemporary minimalism with the considered cleanliness of traditional styles. A singular backdrop for everything, from bright and busy interiors to stripped back urban apartments.

In the interest of environmental concerns and improved performance, products contain engineered components including but not limited to laminated timber, MDF or particleboard.

White Primed Suffolk finished in Colours by XL, Glacier, see pages 42 & 90.
Livenza door handle, see page 69.

A blank canvas

Stay bright and white or add some colour to suit your exact taste and styling. Either way, create your dream home with our gorgeous collection of White Primed doors.

Our White Primed doors arrive with a basic finish on them, called 'primer'.

Primed doors are double coated and save the additional effort of you needing to prime your doors at home. They will however require a light sanding before they can be painted and are ready to fit.*

The whole White Primed range is available in Colours by XL, allowing us to take the hassle of finishing a door away from you.

See page 90 for more details.

Mode by XL

Look great. Feel great. Stay great.

Mode by XL White Grey Laminate Ravenna with Clear Glass, see page 50.
Door handle shown for illustration purposes only.

Perfect for modern life, our Mode range of high performance laminates offers maximum style and superb functionality with minimum cost.

Our Mode range has been specially designed to be versatile and resilient. Whether it is keeping muddy paws and sticky fingers at bay or creating a look to impress any visitors, they have superb features ensuring they look great, feel great and stay great.

Uniform finish · Easy to maintain · Pre-Finished · Scratch resistant · UV light stable · Ultra hygienic

Room Dividers

Clever creativity and flexible living

Our Room Dividers open up your home to a more flexible way of living, unlocking new layouts and creative interiors. Available in a range of materials and options, they are a truly impactful way to adapt and perfect your space.

Easi-Slide system featuring Pre-Finished Oak Pattern 10 with Clear Glass, see pages 32 & 60.
Door handle shown for illustration purposes only.

In the interest of environmental concerns and improved performance, products contain engineered components including but not limited to laminated timber, MDF or particleboard.
Natural variation in the colour or texture of wood are not to be considered as defects.

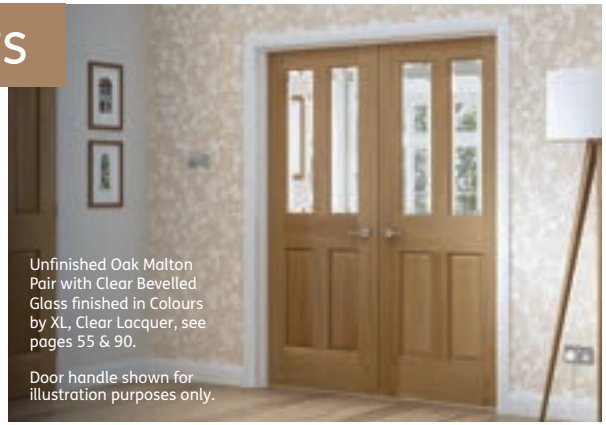

Rebated Pairs

Double doors built with a purpose.

We offer a range of rebated pairs that complement our portfolio. These double doors have been specifically designed so that they are tight and neatly close, creating a flush look.

All Rebated Door Pairs are rebated on the meeting stile and open as illustrated above.

Unfinished Oak Malton Pair with Clear Bevelled Glass finished in Colours by XL, Clear Lacquer, see pages 55 & 90.

Pair Makers

A simple solution for adaptable interiors.

Any pair of doors from our collections can be combined to create a striking French door using a Pair Maker, or upgrade any two doors to a fully rebated door pair using the XL Joinery bespoke service.

Oak Pair Maker

Oak Contemporary Pair Maker

White Pair Maker

Pre-Finished Oak Worcester with Clear Glass, see page 29.
Door handle shown for illustration purposes only.

Pair Maker is attached to the slave door and acts as a rebate to the other door.

Product Description	Code	Size
Pre-Finished Oak Pair Maker	PFOAKPM	1997 x 54 x 36mm
Oak Pair Maker	OAKPM	1997 x 54 x 36mm
Contemporary Oak Pair Maker	COAKPM	1997 x 54 x 36mm
Contemporary Oak Pair Maker (Metric)	OAKPMMET	2056 x 59 x 41mm
White Primed Pair Maker	WHITEPM	1997 x 54 x 36mm

The Pair Maker can be fitted to either a left or right hand door. For installation apertures add 10mm to the overall width of the two doors (not including clearance).

Pair Makers not suitable for the Monza Glazed door.

Doors to be ordered separately.

Pocket Doors

No need to compromise on quality.

Our pocket doors mean you don't have to compromise on style and quality where space is tight, such as en-suites, bathrooms or kitchens.

We've designed the system to work with most doors, with the exception of those with raised beads or mouldings, so you can take your pick from our carefully chosen collections.

Super strong and easy to install, our pocket door kits are constructed with 100% galvanised steel and feature a quick-click frame.

When ordering your pocket door kit you need to inform us of the finished wall thickness. Our pocket doors will fit the following wall thicknesses*:

- 95mm
- 100mm**
- 115mm
- 125mm

Available options:

- Single pocket door kit
- Double pocket door kit
- Fire pocket door kit

Pocket door kit comes:

- White Primed, ready for final painting
- 15 year warranty

What's included:

- Galvanised Steel Frame
- Runners
- Extractable Track
- Front and Rear Door Stop
- Metal Anti-Warp Door Profile
- Self Centering Door Guide
- Fixings
- Jamb Kit

Easi-Glide

Create space in even the most tasking of properties.

Our Easi-Glide system is a cleverly engineered way to create space in even the most tasking of properties. Most doors from our collections can be hung using the Easi-Glide system, with the exception of doors with raised beads or mouldings, and fire doors.

Product comes with:

- Pelmet (available in Unfinished Oak or White Primed)
- Top hung sliding door hardware

White Primed Salerno with Clear Glass finished in Colours by XL, Glacier, see pages 47 & 90.

Product Description	Code	Size (W)
Oak Gliding Door Frame (includes Hardware Kit)	OGLIDEF	2100mm
Oak Gliding Double Door Frame (includes Hardware Kit)	ODGLIDEF	3400mm
White Gliding Door Frame (includes Hardware Kit)	WGLIDEF	2100mm
White Gliding Double Door Frame (includes Hardware Kit)	WDGLIDEF	3400mm

Please note, doors slide over adjoining wall so must not be obstructed by skirting boards. Doors to be ordered separately.

Wardrobe System

Maximise your essential storage space.

Our wardrobe system brings the same timeless style as the rest of our collections, using clever engineering to create a practical solution to maximise your essential storage space.

Features:

- For sliding wooden bypassing wardrobe doors weighing up to 45kg
- Easy to install
- Additional door fittings packs available (See optional extras)
- Optional door guides and floor guide channel available for setting into the floor
- Uses double track to allow doors to bypass each other
- Available in Oak and White Primed

Pre-Finished Oak Pattern 10, see page 32.

Doors to be ordered separately.

Easi-Slide

Share the same space or separate apart.

Our Easi-Slide system is a striking way to divide a larger layout, allowing for a number of unique configurations that will add functionality and transform your home. Each is available in a choice of Oak or White Primed, using the standard door sizes in our range.

The Easi-Slide comes with:

- Frame
- All sliding door hardware (excluding handle)
- Pair Maker

Pre-Finished Oak Pattern 10 with Clear Glass, see page 32.

10 YEARS Manufacturing Guarantee Available on Easi-Slide

FSC www.fsc.org The mark of responsible forestry FSC® C007165

Product Description	Code	Size (H x W)
Oak Sliding Door Frame - 2pcs (includes hardware kit)	OSLIDEF	2090 x3500mm
White Sliding Door Frame - 2pcs (includes hardware kit)	WSLIDEF	2090 x 3500mm

Only available on 35mm thick doors. Doors to be ordered separately.
Easi-Slide components are made from FSC®- certified and other controlled material.
The White Easi-Slide is double coated and ready for final finishing.
Please include the Pair Maker thickness in your frame width calculations (12mm).
Frames will need to be cut down on the height as well as the width as allowances have been made for different types of floor coverings.
If using obscure glazed doors, ensure that the glass is facing the correct way prior to fitting.

How to Order

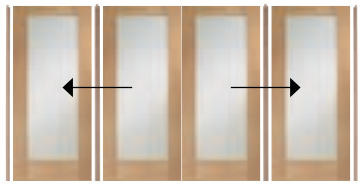

Step 1: Measure your opening

Step 2: Choose your door style

Step 3: Decide on the configuration

Option 1

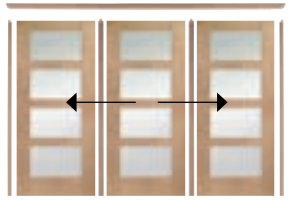

2 fixed sidelights and 2 opening doors

Possible door width options:
838 + 838 + 838 + 838mm
838 + 762 + 762 + 838mm
610 + 762 + 762 + 610mm

Option 2

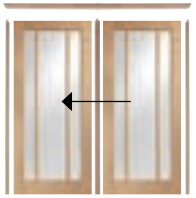

2 fixed sidelights and 1 opening door

Possible door width options:
610 + 762 + 610mm
610 + 610 + 610mm
762 + 610 + 762mm

Option 3

1 fixed sidelight and 1 opening door

Possible door width options:
838 + 762mm
838 + 838mm
610 + 762mm

Easi-Frame

Add functionality and transform your home.

Our Easi-Frame system unlocks a wealth of configurations for room dividers, complementing the doors on our interior collections with a flexible and comprehensive framing structure. Available in Oak or White Primed.

Create the look:

1. 2 Oak Worcester Glazed Doors with 2 Semi Panels
2. 2 Oak Shaker 4 Light Doors with 2 Demi Panels
3. Oak Pattern 10 Glazed Door with 2 Semi Panels
4. White Primed Shaker 4 Light Door with 2 Demi Panels
5. 2 White Primed Pattern 10 Doors with 2 Semi Panels

Product Description	Code	Size (H x W)
Oak Easi-Frame	OEASIF	Max Size – 2017mm x 3000mm
White Easi-Frame	WEASIF	Max Size – 2017mm x 3000mm

When choosing the correct products to be fitted into our Easi-Frame, please bear in mind that this frame has a rebate of approx. 35mm and therefore none of our 40mm-44mm doors can be fitted within this frame.

Easi-Frame components are made from FSC®- certified and other controlled material.

The White Easi-Frame is double coated and ready for final finishing.

Frames will need to be cut down on the height as well as the width as allowances have been made for different types of floor coverings.

Doors to be ordered separately.

10 YEARS Manufacturing Guarantee Available on Easi-Frame

Internal Accessories

Everything you need to complement your doors

Striking the perfect balance between funcationality and cosmetic appeal, we have a variety of accessories to help dress your doors. Whether it's a structural framework or bathroom handle, enhance your look in style.

Livenza handle, see page 69.

Internal door handles

Dress your door with contemporary and modern metalwork or choose reassuringly traditional designs.

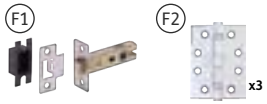

Our handle packs provide everything you need in one package, complete with three high quality hinges and either a latch or bathroom lock, depending on the handle ordered.

CHROME HANDLE PACKS
Supplied with Drava, Loire, Meuse, Rhine, Tiber & Timis handles.

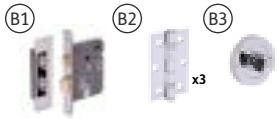

Standard handle pack

Fire Door handle pack

Bathroom handle pack

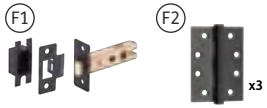

BLACK HANDLE PACKS
Supplied with Livenza, Sesia & Tanaro handles.

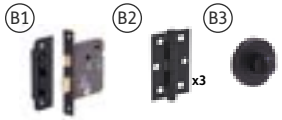

Standard handle pack

Fire Door handle pack

Bathroom handle pack

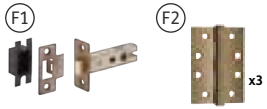

ANTIQUE BRONZE HANDLE PACKS
Supplied with Oglio handle.

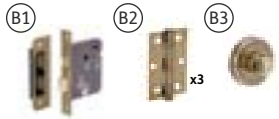

Standard handle pack

Fire Door handle pack

Bathroom handle pack

(S1) CE Marked 65mm or 75mm Tubular Latch

(S2) 3no 3" Steel Ball Bearing Hinges

(F1) CE Marked 65mm or 75mm Tubular Latch

(F2) 3no CE Marked 4" Steel Ball Bearing Hinges

(B1) CE Marked 65mm or 75mm Bathroom Lock

(B2) 3no CE Marked 3" Steel Ball Bearing Hinges

(B3) Matching Bathroom Turn and Release

Latch Size Recommendations: We recommend a 65mm latch for all doors with the exception of the following ranges (glazed and panelled doors); Oak and White Primed Shaker 4 Panel, Oak and White Primed Pattern 10 and Oak Messina, for these ranges we recommend a 75mm latch.

The Rustic Oak Ledged requires T-Bar hinges, and we recommend a surface mounted Rim latch.

1 YEAR Manufacturing Guarantee

Proud of our craft

If there's one thing that defines an XL Joinery door, it's that we work with the best.

The best materials, and the best people.

By carefully selecting A-grade American White Oak veneers and combining this with hand matching techniques for our lippings and grooves, we ensure the highest quality finish on all of our Original Oak doors.

Attention to detail and unparalleled quality. That's what craft means to us. You'll find that craft in everything we do, across our entire range. Every single door, every single day, delivered using the best facilities and technical skills. Being backed up by regulatory compliance and professional certification, we go over and above to ensure the reputation our people have built over the years is well deserved.

We are honoured to be...

- ISO 9001 Accredited
  ISO 14001 Accredited
- Guild of Architectural Ironmongers
- Guild of Master Craftsmen Member
- British Woodworking Federation
- Door & Hardware Federation
- Building Regulations Compliant

We rely on our people every step of the way.

It's no good supplying beautiful, well made doors if we can't ensure gold standard delivery; or guarantee the kind of renowned after-sales support that has professional installers coming back time after time.

It starts with design and development, spotting fresh styles and introducing innovative new concepts. That might be the contemporary statement of a Colours by XL door, a service powered by our talented finishing team. Or it might be an on-trend room divider, creating functional spaces for families to share.

All that hard work is complemented by our technical experts, ensuring our doors are safe, sound and fit for purpose. It might not be glamorous, but achieving the correct certification and compliance is just as important to the finished product.

Fire safety is paramount to us. We are proud that all our fire doors are extensively tested and have third party certification, giving you peace of mind that our doors offer maximum safety. Compliance, thoroughly modern quality assurance, tracking and traceability, are at the core of our business.

Our West Yorkshire headquarters and distribution centre is state of the art too. We hold 200,000 doors in stock, and it takes some pretty complex logistics to ensure such a large, nationwide distribution network runs smoothly. We're pretty proud of our operation. It just works.

When it comes to sales and support, our team are right there. Not squirrelled away in a call centre, but over the way from the workshops. If they don't know the answer, they can ask someone who does. Care and attention that's personal.

Sustainable at heart

We couldn't exist without carefully managed forests, the source of the beautiful timber every XL Joinery door relies on.

It's a vital raw material, and a vital responsibility. Illegal logging and timber production is a danger throughout the supply chain, from the communities and wildlife it displaces, right through to the unreliable quality and risk of failure for the end result.

That's not our way. Our people are proud of their work, and we'd be letting them down if we didn't do everything possible to source ethical timber, and to contribute to a sustainable future for our natural resources. That's why we've had our own FSC® Chain of Custody since 1995, and PEFC since 2014. We work closely with our manufacturing partners to ensure they share our ethical vision, following responsible forestry practices, and operating as transparently as possible.

Though it's our people that drive our focus on sustainability, it's our systems that enable real progress. Our environmental management systems comply to ISO 14001 standards.

Certified Carbon Neutral

Responsibly managing our environment is, and always has been, a vital commitment for us. We have an obligation to combat climate change within our communities both here in the UK and throughout the world. Working with The Carbon Footprint we are celebrating another year of Carbon Neutrality.

Simply put, we are committed to offsetting all our greenhouse gas emissions through ambitious projects. We've planted plenty of trees and we've also been supporting projects in countries such as Chile and Uganda, which offer employment and fresh drinking water to their rural communities.

What's more, we've been working to reduce our output at home, transitioning to electric vehicles on the warehouse floor and introducing a raft of energy-saving measures throughout our headquarters.

Most importantly, we're not just offsetting our carbon CO_2, we're actively committed to reducing our emissions now and in the future.

Carbon Footprint standard Carbon Neutral Organisation carbon footprint

Doing things differently

For skilled joiners in years past, every job was bespoke.

Every project required something a little different. A new solution, or a challenge to be overcome with craft and ingenuity. In this era of mass production, it's important to remember that different doesn't mean difficult. Our people love different. So if you need a width or length you can't see in our collection then let us know.

Bespoke
made to measure service

XL Bespoke

Step 1.
Talk to one of our merchants or retailers and let them know what you are planning.

Step 2.
We'll produce a CAD drawing for you to sign off.

Step 3.
We'll manufacture your bespoke doors.

Step 4.
We'll deliver, usually 20 weeks after sign off.

If you'd prefer your Simpli Doorset linings in Oak please contact our Sales office to discuss further.

Fire Doorsets optional extras:

- Drop down threshold (DS-ADS)
- Door closer (DS-SCLOSER)
- Door chain (DS-DC)
- Intumescent door viewer (DS-DVI)
- Batwing seals (DS-BWW)
- White smoke seals (DS-SFSW)
- Brown smoke seals (DS-SFSO)

See page 68 for recommended latch sizes. White Primed frames require final finishing. Doors and handles to be ordered separately.
Fire Doors come with intumescent strips pre-fitted in the linings (White on White Primed).
Product is supplied braced and ready to fit into the opening on site. Standard & Fire Door linings are both 32mm thick.
All internal doorsets are supplied with a 13mm undercut.

Simpli Advanced®

Commercial and high rise residential developments demand high performance doors that comply with strict building regulations.

Our certified Simpli Advanced® internal apartment entrance fire doorset range carries all the right credentials, ensuring peace of mind for developers.

In addition to having the right certifications, we understand the importance of cosmetics, and so our fire doorset solution revolutionises the way apartment entrance doors look and feel.

Simpli Advanced® fire doorsets allow you to make a statement by specifying one of our selected feature oak doors, with a FD30 or FD60 fire rating. With a choice of finishes, you can contrast or complement your interior design requirements, creating truly beautiful but safe living environments.

ASSA ABLOY Opening Solutions · Yale · LORIENT

Our partnership with ASSA ABLOY has allowed us to design our fire doorsets to the highest specification for safety, combining the best in door manufacturing and the global leader in access solutions.

XL engineered and secured with ASSA ABLOY hardware and components, our Simpli Advanced® fire doorsets meet the highest demands for quality, protection and functionality.

For projects requiring stunning doorsets that have formidable fire and smoke resistance, we have a rigorously tested, and compliant solution, with a full audit trail.

Please visit our website for the Simpli Advanced® apartment entrance doorsets brochure to find out more.

Simpli Advanced®
XL Engineered. Secured by ASSA ABLOY.

Internal apartment entrance fire doorsets

www.xljoinery.co.uk/doorsets/simpli-advanced/

- Available for wider access

1981 x 1524	78” x 60”	6’6” x 5’0”
2040 x 526	80 1/4” x 20 11/16”	6’8 1/4” x 1’8 11/16”
2040 x 626	80 1/4” x 24 5/8”	6’8 1/4” x 2’0 5/8”
2040 x 726	80 1/4” x 28 5/8”	6’8 1/4” x 2’4 5/8”
2040 x 826	80 1/4” x 32 1/2”	6’8 1/4” x 2’8 1/2”
2040 x 926	80 1/4” x 36 7/16”	6’8 1/4” x 3’0 7/16”

* 1981mm & 2032mm height doors are 35mm in depth. 2040mm height doors are 40mm in depth.
All Fire door sizes are 44mm in depth.

Important information

Warranties

PLEASE READ THIS PRODUCT WARRANTY BEFORE YOU INSTALL ANY OF OUR DOORS. IN PARTICULAR, PLEASE NOTE THAT YOU MUST COMPLY WITH CERTAIN INSTRUCTIONS RELATING TO ITS INSTALLATION AND MAINTENANCE TO BE ABLE TO CLAIM UNDER THIS PRODUCT WARRANTY.

We are pleased to offer the following warranties on our doors:

- Limited 30 year warranty on Oak Statement Suffolk and Oak Statement Palermo doors.
- Limited 25 year warranty on Oak Original Suffolk and Oak Original Palermo doors.
- Limited 10 year warranty on both External and Internal Oak, Walnut, Laminate, White Primed and Hardwood Doors.
- Limited 5 year warranty on Handle Packs, general wear and tear is not covered.
- Limited 1 year warranty on Frames, Linings, White Moulded Doors, Pine Doors, Gates and Crysta-Glas.

The appearance of field finished doors/gates is not warranted in any event. Natural variations in the colour or texture of wood shall not be considered as defects. Warp, twist cup or bow shall not be considered a defect unless they exceed the following tolerances: Warp, 6mm in the plane of the door/gate itself; Cup, 2mm across the width of the door; Bow, 4mm along the length of the door/gate. Any warranty against warp does not apply in any event to the following: all doors/gates which are wider than 914mm, or higher than 2,134mm doors/gates that are improperly hung or do not swing freely. Delamination caused by failure to protect and seal all exposed surfaces of the door/gate/lining/frame including failure to lacquer top and bottom edges of the door/gate. In respect of doors/gates covered by this warranty, the manufacturer may, as its option and in its sole discretion, either issue a credit note for the door(s)/gate(s), repair the door(s)/gate(s) without charge or replace the door(s)/gate(s) without charge, in the same state of fitting and/or finishing as was originally supplied and the manufacturer shall have no further liability whatsoever to the purchaser.

Please note: Natural variations in the colour or texture of wood shall not be considered as defects and therefore will not be covered by the product warranty. We recommend that doors are purchased in plot orders to minimise variation.

This warranty extends and is available only to the first retail purchaser of our doors and is not available and may not be enforced by any person to whom such product(s) are transferred by such a purchaser.

The following must be carried out. Failure to do so will invalidate your warranty/return:

Handling and Storage

- Doors must be examined immediately. Any damages or defects on the door must be reported on delivery.
- Once a door has been worked upon, it is deemed the sale has been accepted and therefore cannot be returned.
- Doors should always be stored flat inside on 3 bearers. Ideally in the same room where they are to be installed and within their packaging to protect them from damp and dirt until they are ready for finishing and fitting.
- Doors should not be fitted where extremes of temperature or humidity may occur, e.g. round new concrete, in a newly plastered room or near a sauna. This is because it will have a very high humidity level until dried and ventilated. Gentle internal heating and good ventilation will help reduce the problem.
- In new build situations the doors should only be fitted when wet trades have departed, sufficiently dried and the property is ready for final decoration.

Trimming and Finishing

- All of our products should be treated with a coat of finish as soon as they are taken out of their packaging, offered up, cut and then fully finished to prevent moisture absorption prior to final fitting.
- When applying the finish pay particular attention to sealing the timber end grain on the tops and bottoms of the doors: Ensure that all lock, latch, letterbox (if applicable) and hinge cut-outs are also fully treated.
- Failure to treat all the timber surfaces may lead to excessive changes in moisture content which will cause the timber to shrink or swell, possibly causing splits and distortion. All bare timber surfaces require finishing before installation.
- Our Pre-Finished doors will require any bare timber areas caused by trimming and cut outs made for hardware to be adequately treated before final fitting. Should a door require any trimming or alterations, they must be immediately re-treated to prevent moisture absorption which can lead to splitting and warping.
- Please refer to the door label or the product page on the website **www.xljoinery.co.uk** for instructions on the number of coats to be applied and the recommended treatment.
- When trimming an internal or external door, please refer to the product information on our website **www.xljoinery.co.uk** or the label on the door. This will indicate how much can be taken from the door. Please note any reduction must be removed evenly from each side.
- Bi-Folds are supplied with a track and folding hardware and cannot be trimmed.
- Clear translucent coatings are not recommended for external doors as the timber may discolour through UV degradation.
- White Moulded and White Primed doors require a top coat after fitting. They are only suitable for painting.

Installations

Internal Doors

- Three hinges must be used to hang the doors.
- Latches and locks should not be fitted adjacent to door mid-rails where the joint maybe compromised.
- All hardware screw holes should be pre- drilled to prevent any timber splitting.
- Fire doors have individual fitting guidelines and the installer must refer to the Global Assessment Report referenced on the front of the fire door label.
- Rebated Door Pairs are supplied with separate instructions for fitting and trimming.

External Doors

- Three hinges must be used to hang the doors, four hinges for Stable doors.
- External doors must have a weatherbar or rain deflector fitted to ensure that water runs away from the face and bottom edge of the door. Stable doors require a weather bar at the bottom of the face on each half leaf. These should be suitably fitted and sealed across the top where they meet the door face.
- A drip bead should be fitted to the frame head to prevent moisture ingress to the top edge of the door.
- All hardware screw holes should be pre- drilled to prevent splitting of the timber.
- Latches and locks should not be fitted adjacent to door mid-rails where the joint may be compromised.
- We recommend letter box cut outs are not made through vertical panels as this could lead to moisture ingress and/or failure of the product.
- In areas of severe exposure, external doors should be protected by a canopy or porch in addition to recommended finishing, with extra coats of finishing to be applied.
- Sidelights are supplied with separate instructions for fitting/trimming.

Maintenance

- To prolong the natural beauty of the door, our doors should be checked annually and kept clean by regularly wiping the surface down with a clean damp cloth.
- To renew the lustre of the finish and ensure the product is fully protected, top up coats must be applied when the original finish looks a little tired or worn.

Please note: Under our warranty, liability is limited to replacing the door alone. XL Joinery shall have no further liability whatsoever to the purchaser for any consequential costs. Any structural alteration of an XL Joinery door will void the warranty.

For further details with regards to our warranties and terms and conditions, please visit our website: www.xljoinery.co.uk/terms-conditions

You will also find a comprehensive overview on handling and storage, trimming, finishing, installation and maintenance for all our products, on our website and on the back of the labels. Please ensure you read these in full before installing our products.

Exclusions

This warranty does not, in any event, cover the following:

- Periodic check-ups, maintenance and repair or replacement of parts due to normal wear and tear.
- Cosmetic damage, including but not limited to scratches and dents.
- Costs relating to transport, removal, or installation of the product.
- Malfunction or damage caused by any cause not attributable to the manufacturing, design, or installation of the product (including but not limited to fire, water, neglect, improper use etc).
- Abuse or misuse, including but not solely limited to the failure to use this product for its normal purposes or in accordance with XL Joinery's instructions for usage and maintenance.
- Failure, damage, unsatisfactory service or appearance, or any other defect caused by failure to follow recommended handling, fitting, finishing and maintenance instructions.
- Any structural alteration of the product.

How to claim

Any claim under this warranty must be made to the retailer, who will discuss your claim with XL Joinery. Claims made under this warranty are only valid if the product warranty has been registered with us or upon presentation of proof of purchase of the applicable product. We may request proof of purchase from you if traceability through the relevant retailer is not possible, or if XL Joinery cannot identify the product as being an XL Joinery product.

Limitation of Liability

To the maximum extent permitted by applicable national laws, this warranty will be the customer's sole and exclusive remedy against XL Joinery. XL Joinery's liability is limited to replacing the door alone. XL Joinery shall not be liable for any consequential or indirect loss arising in connection with the product. Insofar as XL Joinery's liability is excluded or limited this shall also apply to its employees, staff, representatives, and agents.
